

High Value Goods

# Delivery & Tracking

*Secure Transportation of High value goods*

## Need for Secure transportation for high value goods

The transportation of high-value goods, such as gold and diamonds, presents unique challenges that demand specialized security measures. These precious items are not only valuable in terms of their monetary worth but also carry a high risk of theft during transit. Ensuring their safe delivery is crucial for maintaining trust with clients and safeguarding investments.

Our secure transportation solution is designed specifically for high-value goods, utilizing advanced technology to mitigate risks and enhance security. By implementing a comprehensive monitoring system, we aim to provide peace of mind for all stakeholders involved in the logistics process.

**High value goods require specialised security during transportation.  
Risks include theft and loss, making secure logistics essential**

## Secure Transportation of High value goods

### Camera

Live camera feed for real-time monitoring and analysis.

### E-lock

Smart E-lock for secure keyless entry and access control.

### Door Sensor

Door sensor detects open/close status for security monitoring.

### SOS

SOS alert for emergency assistance and rapid response.

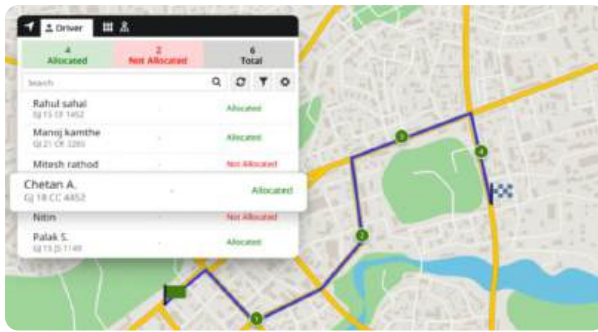

### Driver ID (i-Button)

Driver ID i-Button for secure driver authentication.

# Our Solutions

The implementation of secure transportation offers numerous benefits such as:

- ✓ Enhanced security
- ✓ Remote visibility
- ✓ Early warning and alerting
- ✓ Operational efficiency
- ✓ Peace of mind

## Our solution and features for securing the high value goods

### Security Camera System:

- ✓ Continuous video monitoring of cargo with anomaly alerts (like camera cover)
- ✓ Remotely accessible real time video feed

### E-lock system:

- ✓ Remote lock/unlock capability for enhanced security
- ✓ Tamper/forcing-entry detection

### Advanced Driver features:

- ✓ Panic SOS button to enable complete lockout and alert emergency services.
- ✓ Driver monitoring systems with drowsiness or distracted alerts.
- ✓ Easy job creation, assignment and monitoring feature with driver app.

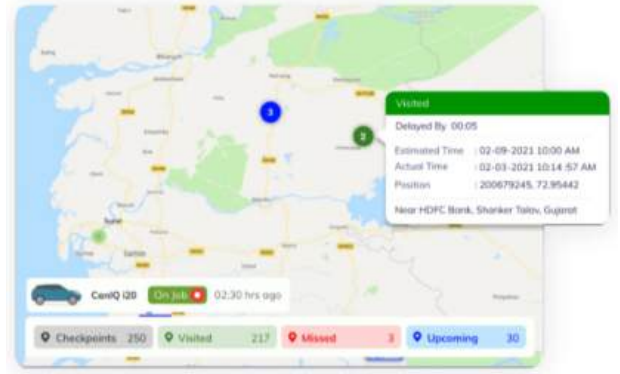

- ✓ Centralised dashboard for monitoring entire fleet
- ✓ Vehicle vitals monitoring (fuel, tyre pressure, etc..) and remote immobilization
- ✓ Real-time location tracking and status updates
- ✓ Instant alerts in case of tracker unplugging, crashes and unauthorised access.
- ✓ Customisable alerts like geofence breach, route deviation and unplanned halts.
- ✓ Historical trip data with advanced features like playback.
