

Hutrac: Propel Your Fleet Beyond Limits - Don't Miss Out!

Redefining Fleet Oversight: Cutting-Edge Web-Based GPS Tracking for the Widest Range of Devices and Sensors

Amazing Benefits

Always on track. Hutrac helps drive your business UP

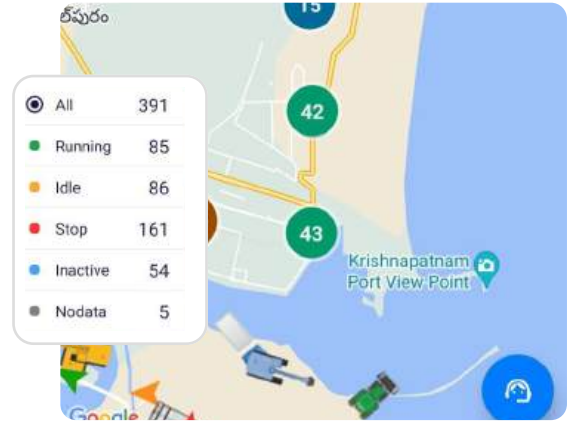

- ✓ **Real-time Location and Movement Monitoring:** Track your vehicles' whereabouts and activities in real-time.
- ✓ **Job Management:** Efficiently manage tasks and assignments for your fleet, enhancing productivity and organization.
- ✓ **Route Optimization:** Optimize routes to reduce fuel consumption, save time, and improve overall efficiency.
- ✓ **Driving Behavior:** Monitor and analyze driver behavior to promote safe driving practices and reduce risks.
- ✓ **Temperature Monitoring:** Monitor temperature-sensitive cargo to ensure it remains within the required range during transit.
- ✓ **Maintenance Reminder:** Get timely reminders for scheduled maintenance tasks to maintain your fleet's top condition.
- ✓ **Elock:** Secure vehicles and prevent unauthorized access with electronic locking systems.
- ✓ **Load Monitoring:** Monitor the weight and distribution of loads to ensure safe transportation and compliance with regulations.

Live GPS Tracking

Maintain constant vigilance over your fleet, 24/7.

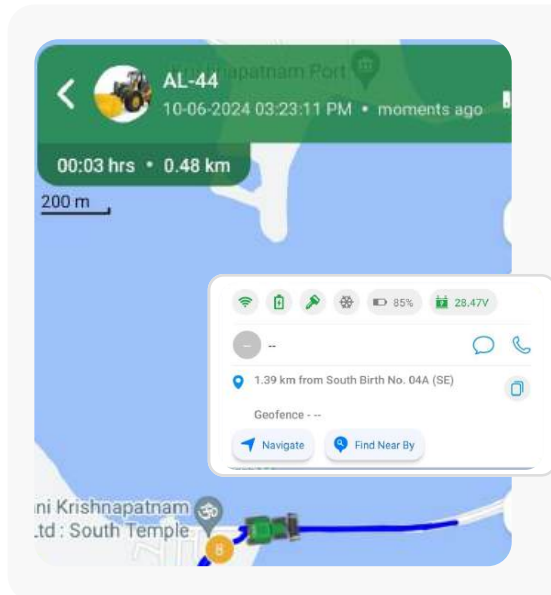

Gain unparalleled control over your fleet with constant vehicle surveillance. Stay updated on every halt, position, and timeframe.

Receive customized updates, accessible via our mobile application.

Real-Time Dashboard

Map-Based Vehicle Tracking

Estimated Time of Arrival (ETA)

Optimise your delivery schedules

Optimize your delivery workflow by mapping daily vehicle routes, including all client stops, and calculating estimated arrival times (ETA) at each destination.

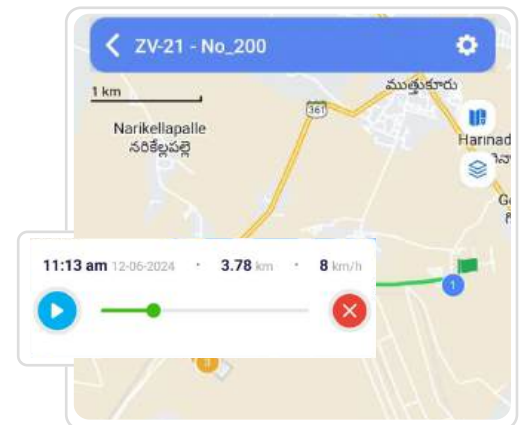

Quick Trip Planning with Checkpoints

Comprehensive Trip Analysis

Store and Replay Trip History

Unlock insights into vehicle movements spanning extensive periods for comprehensive analysis.

Harness the power of history playback to revisit previous vehicle movements, capturing stops, routes, duration, and any breaches. Utilize historical data to establish route fences, elevating route planning for optimal efficiency.

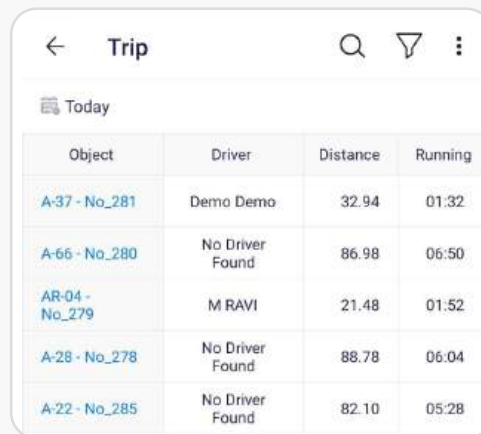

Explore trip history with ease

Personalized historical analysis for insights

Create Route & Schedule Trips

Guarantee punctual deliveries through strategic planning.

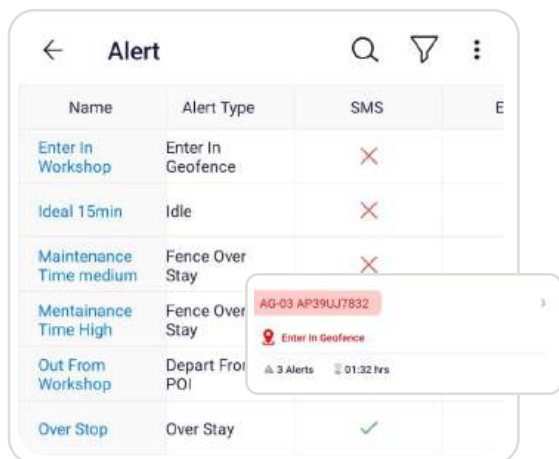

Optimize your delivery strategy by meticulously planning vehicle routes, incorporating all required checkpoints and precise time schedules to ensure on-time deliveries. Plan your delivery trips in advance to maximize operational efficiency.

Object	Driver	Distance	Running
A-37 - No_281	Demo Demo	32.94	01:32
A-66 - No_280	No Driver Found	86.98	06:50
AR-04 - No_279	M RAVI	21.48	01:52
A-28 - No_278	No Driver Found	88.78	06:04
A-22 - No_285	No Driver Found	82.10	05:28

Elevate your trip scheduling with advanced features.

Achieve comprehensive trip planning and coverage for all your needs.

Name	Alert Type	SMS	E
Enter In Workshop	Enter In Geofence	✗	
Ideal 15min	Idle	✗	
Maintenance Time medium	Fence Over Stay	✗	
Maintenance Time High	Fence Over Stay		
Out From Workshop	Depart From POI		
Over Stop	Over Stay	✓	

Receive Instant Mobile Alerts

Stay updated on all vehicle movements

Receive instant notifications for critical events such as vehicles entering or exiting designated areas like your office or specific landmarks. Stay agile in response to accidents, schedule deviations, and more.

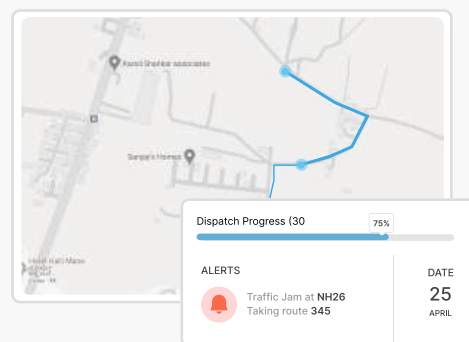

Unified Alert Hub

Real-Time Notifications on Your Mobile

Location Marking & Delivery Timing

Boost Delivery Assurance

Receive live updates with real-time alerts upon vehicle arrivals or departures from your clients' locations. Add unlimited Places of Interest (POIs) on your map and stay informed about your fleet's movements.

Interactive POI Layers on Map

Tailored Spot Fence Alerts

Analyse fuel usage

Fuel Efficiency Mastery

Keep track of real-time fuel levels and reduce fuel costs. As a fleet owner, optimizing fuel consumption is crucial for success.

Real-time Temperature Monitoring

Enhanced Refrigeration Control

Monitor temperature variations with a dedicated feature tailored for cold supply chain transportation.

Temperature Reports for Detailed Insights

Temperature Charts for Visual Analysis

Prevent Unauthorized Vehicle Use

Vigilant Vehicle Access Control

Take full control over vehicle usage, ensuring authorized and secure operation. Set work boundaries and receive instant alerts for unauthorized use.

Route Boundary Settings for Controlled Access

Geographical Use Limits for Enhanced Security

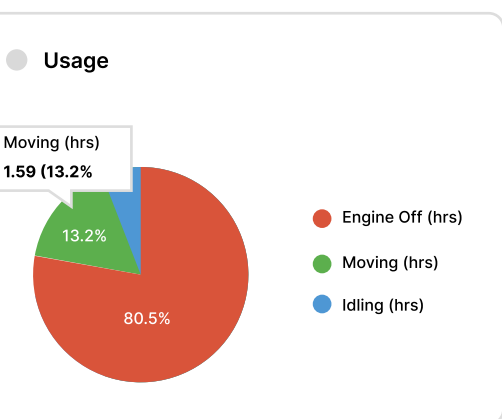

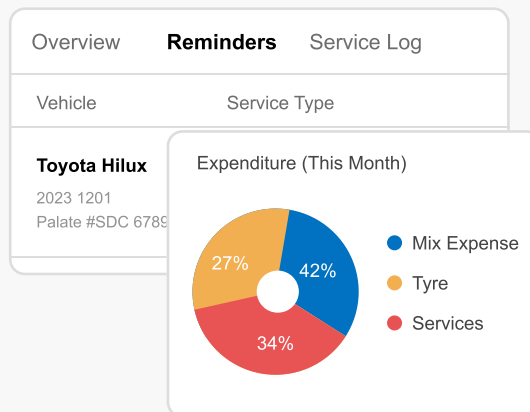

Vehicle Service and Maintenance

Proactive Fleet Maintenance

Elevate performance, reduce maintenance expenses, and improve fuel efficiency with proactive vehicle care. Stay ahead with regular maintenance to keep your fleet running smoothly.

Comprehensive Overview with OneView Dashboard

Prompt Alerts and Service Reminders for Timely Maintenance

Reports for Enhanced Insights

Empowering Insights Dashboard

Gain access to a wealth of valuable business intelligence through our comprehensive reports and charts. Dive into detailed trip analysis and explore informative data visualizations for a deeper understanding.

Explore Detailed Trip Analysis

Dive into Informative Data Visualizations

Optimise Performance Analysis

Drive Efficiency & Productivity

Harness analytics for actionable insights into fleet efficiency and driver behavior. Utilize comprehensive analysis tools to promptly identify and resolve issues.

Unlock Comprehensive Driver Scorecards

Access Detailed Fleet Utilization Metrics

Vehicle	Dist(Km)	Hours	Trips
Truck 1	133302.8	425h 34m	987
Truck 2	153302.8	525h 34m	1123
Truck 3	113302.8	325h 34m	560

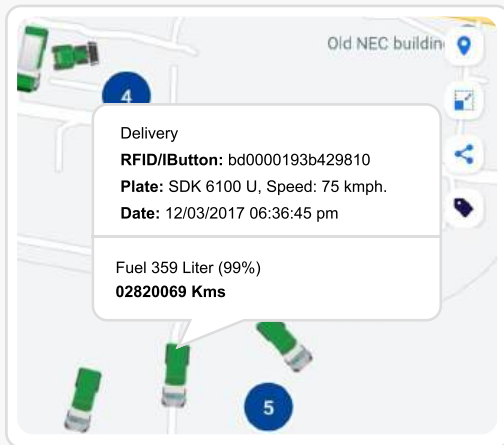

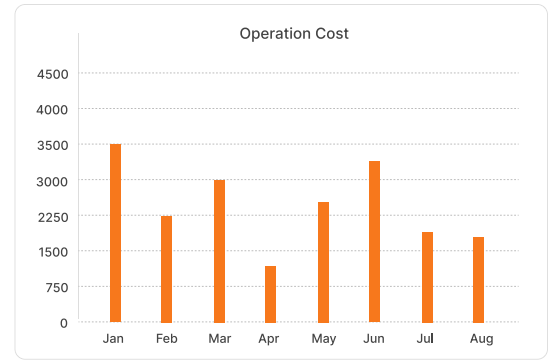

Reduce Costs with Expense Analysis

Streamline Fleet Expenses

Effectively monitor and manage your fleet's operating costs. Gain detailed insights into fuel consumption, wages, maintenance, and more, enabling precise budgeting and cost-reduction strategies.

Access a Comprehensive Overview of Operating Costs

Dive into a Detailed Breakdown of Expenditure by Usage

Anti-Theft Measures

Safeguard Your Assets

Our system offers a range of safety and fleet management features to deter potential theft.

Implement Driver Identification/Authorization Measures

Enable Remote Immobilization via Phone App

API/Web service Integration

Orchestrating Efficiency Through Integration

Achieve seamless harmony between your fleet and ERP system, orchestrating fully automated operations. Leverage a diverse array of API/Web services to synchronize data, unlocking enhanced efficiency and streamlined workflows.

Simplified Fleet Management via HuLogis Interface

Effortless ERP/CRM Integration for Unified Automation

Vehicle	Plate	Driver
Vehicle 200	Truck 11,Pickup Single cab1, Commercial Vehicle 1	
Delivery (10)		
Truck 8998K	SDK 89	
Truck 5465A	SDK 54

Public Transport Management and Monitoring System

Hutrac's Public Transportation Management Solution is designed to enhance operational efficiency for transporters and operators while providing a seamless experience for passengers.

The Hutrac interactive admin console offers over 50 vital pieces of information through its telematics dashboard, while the interactive mobile and progressive web applications enhance the guest or passenger experience.

Key Features:

- Fleet Planning and Scheduling
- Fuel Efficiency Management
- Geofenced Routes
- Distance Reading
- Real-time Visibility
- Interactive Booking App
- ETA Calculator
- Safety - SOS Button
- Driver Management
- Comprehensive Reporting and More...

Asset Monitoring and Tracking System

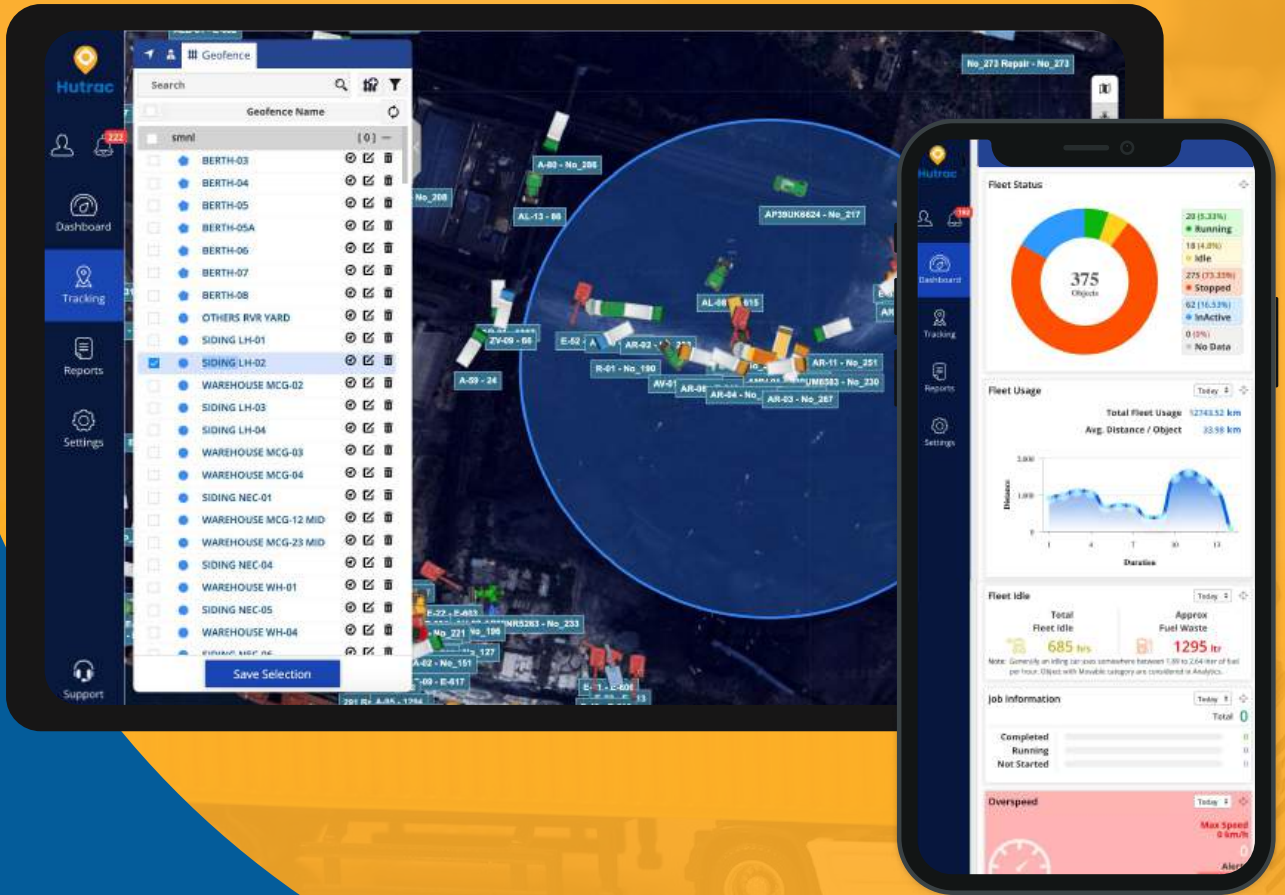

Hutrac's Asset Tracking and Monitoring System enables hospitals, hotels, malls, and airports to track and trace various movable and immovable assets.

Our GPS and RFID-based tracking solutions help businesses locate and monitor assets and expensive equipment using our interactive telematics dashboard. Our modular and flexible solution supports multiple GPS trackers, RFID tags, beacons, and more. It functions effectively in both indoor multistory buildings and outdoor environments.

Key Applications:

- Trolley Tracking
- Wheelchair Tracking
- ULDs & Containers at Airports
- Porters in Airports and Hospitals
- Rental Equipment
- Hospital Equipment
- Warehouse Inventories
- Courier and Parcel Tracking
- Wildlife Conservation
- Daycare Management
